

Team Involvement in Demonstration

Date	03 October 2026
Team ID	SWTID-2026-5999
Project Name	PocketSmart AI — AI-Assisted Goal-Based Budget Planner
Maximum Marks	1 Mark

Team Involvement

S.No	Team Member	Role in Demo	Section Presented	Contribution
1	Avinash K	Team Lead & Backend Developer	Problem-to-solution flow and backend architecture	API routes, budget verification and overall integration
2	Manoj G	AI / GenAI Developer	Gemini workflow and live planning	Prompt design, structured AI response and fallback handling
3	Kamalesh PA	Frontend & UI/UX Developer	User interface and planner screens	Responsive pages, forms and result presentation
4	Shivashankaran N	Testing & Quality Engineer	Validation and testing	Test cases, edge cases, regression checks and performance evidence
5	Nagarujuna BV	Database, Documentation & Deployment	History, repository and project documentation	SQLite/history, GitHub organization, setup and phase documents

Coordination

Aspect	Details
Team Coordinator	Avinash K
Code Collaboration	GitHub branches and pull requests
Testing Coordination	Shivashankaran N
Documentation Coordination	Nagarujuna BV
Final Demo Participation	All five members

Demonstration Principle

Each member presents the part they contributed so the demonstration covers both the working application and the engineering decisions behind it.
